

About WeReachOut

WeReachOut is a volunteer-based 501(c)(3) non-profit organization without any religious or political affiliation. We are committed to making a difference by connecting sponsors with students across India who are in need of support since 2004.

Our Beliefs

We believe that every student with the desire and determination to succeed in life deserves an opportunity to excel, regardless of their background and financial circumstances.

We believe that both financial support and career guidance are essential in helping students achieve their full potential.

We also believe sponsors are best positioned to select deserving students through their contacts in India as beneficiaries of their sponsorship, recognizing the lasting positive impact on their lives, families, and society.

Our Services

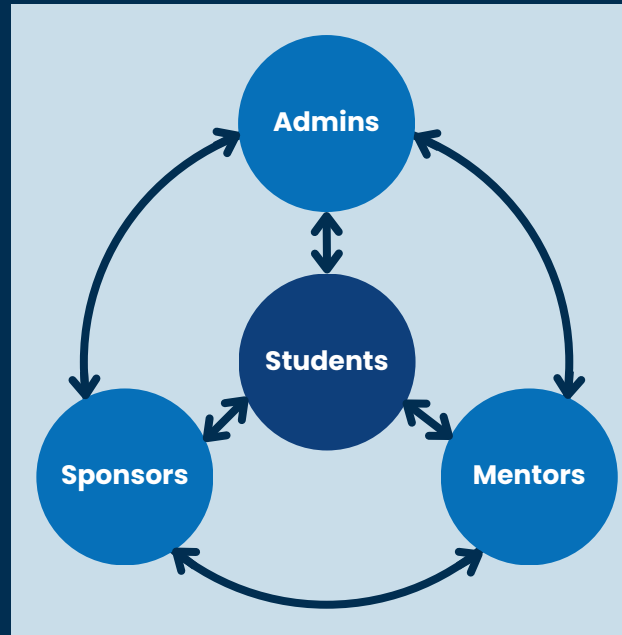

We manage all sponsorship details, from collecting student details to distributing funds and monitoring progress. Sponsors receive regular updates via email and our website.

We help students gain essential skills through career guidance and encourage them to get involved in community services to promote social responsibility.

Our services are free, and we ensure that 100% of sponsors' contributions go directly to students' education, with no deductions for operating costs.

Our Model

This diagram depicts our model of operations

Sponsors

Sponsors play a crucial role in WeReachOut by:

- 1) Identifying students in need from their neighborhoods, local contacts, schools, or communities in India for sponsorship.
- 2) Making monetary contributions to cover the educational expenses of the students they have identified.
- 3) Assisting WeReachOut in finding mentors from their region who can support and guide sponsored students.

Sponsors can also assist by sharing their sponsorship experience with WeReachOut and its positive impact on students' lives to reach more deserving students across various parts of India.

Mentors

Mentors serve as the primary contact for WeReachOut students, overseeing local coordination and mentoring to enhance their academic achievements.

These individuals may include our former students, career guidance professionals, or social workers who assist WeReachOut in organizing career and personality development programs for students in their location.

They also encourage students to engage in social service-oriented activities, guiding them to recognize their capabilities and potential to make a difference in our society.

Administrators

Administrators play a critical role in facilitating the overall operations of WeReachOut and serve as primary contacts for sponsors to keep them informed about ongoing activities.

They are responsible for managing sponsorships across different functional areas within WeReachOut.

They regularly convene in forums to review progress, share insights, and plan further activities that align with WeReachOut's mission.

Students

"Today's Students are Tomorrow's Leaders"

The world needs true leaders to ensure fairness for everyone. At WeReachOut.org, we are committed to instilling these values in our students through our services.

WeReachOut enables sponsors like you to support and inspire them in becoming impactful leaders in our society.

Sponsorship Process by Role

Sponsors

Sponsors submit the contact details of students they wish to support, ensuring direct engagement in the sponsorship process.

WeReachOut also assists sponsors in selecting students through our curated list of Students-In-Need on our website.

Our website allows sponsors to track their donations, sponsorship distributions, current balance, and students' progress by year.

Students

Students complete the Student Detail form, providing necessary information including their bank account details, to ensure smooth processing of sponsorships.

Upon receiving sponsorship funds, students will send an acknowledgment letter to confirm receipt of the sponsorship.

Students are encouraged to submit their updates to WeReachOut, ensuring that sponsors stay informed about their progress and achievements.

Administrators

Administrators guide students through completing the Student Detail form, including bank account details to ensure seamless sponsorship distribution.

Upon reviewing the completed form, administrators activate the student record on our website to link them with their sponsors.

Administrators also collect & upload scanned copies of students' reports and receipts to make them available to their sponsors.

How Can I Help?

1) Sponsor a Student: Start by submitting the contact details of the student you wish to sponsor or select a student from the Students-In-Need section on our website based on your preference.

2) Become a Volunteer: Help organize WeReachOut promotional events, raise awareness about our outreach program, and help us reach out to more students in need from different parts of India.

3) Subscribe to our Newsletter: Stay updated and help spread the word about WeReachOut through your social networks and encourage others to sponsor students from their neighborhood.
